To the Honorable Samuel Cony, Judge of the Probate of Wills and granting Administration with and for the county of Penobscot and State of Maine

RESPECTFULLY shews John Peters of the city of Brooklyn, in the county of Kings and State of New York, that he has been duly approved and appointed Executor of the last will and testament of John Peters of said Brooklyn, late deceased by the Surogate of the county of Kings aforesaid and a certified copy of which approval and appointment he hereby submits for examination He therefore prays that the same may be filed and allowed and ordered to be transcribed upon the Records in the Registry of Probate for said County of Penobscot

Dated at Bangor this twenty-eighth day of April A D 1846

JOHN PETERS
By Geo W INGERSOLL, his Att'y

At a Court of Probate held at Bangor within and for the County of Penobscot on the last Tuesday of April in the year of our Lord eighteen hundred and forty six

THE aforesaid John Peters Executor above named having presented the above petition, Ordered That the said Executor give notice to all persons interested by causing a copy of the petition and this order of Court to be published three weeks successively in the Daily Whig & Courier, a paper printed at Bangor in said county the first publication to be thirty days previous to the last Tuesday of June next, that they may appear at a Court of Probate to be holden at the Probate office in Bangor aforesaid on the first Friday of June next at ten of the clock in the forenoon, and shew cause, if any they have why the prayer of said petitioner should not be granted

Highly Important to all Invalids & friends of Invalids.

THE AFFLICTED IN DANGER!
SALUTARY CAUTION
READ! READ!!

THE well established and well-earned reputation of WRIGHT'S INDIAN VEGETABLE PILLS, as a Sovereign antidote and cure in cases of Fevers, Head Aches Indigestion Dyspepsia Dysentery, Colic, Female complaints &c, &c has excited the cupidity and envy of the proprietors of other medicines and since their admirable qualities cannot be impugned has urged against them the contemptible efforts of men who seek to pass off other medicines by the reputation of Wright's Indian Vegetable Pills

Beware of all attempts to palm off any (so called) specious imitations by means of sounding and deceptive titles "SUGAR COATED PILLS" may be pleasant to the palate, but it requires something more than a agreeable exterior to combat with disease We shall not attempt to analyze the compound so of the "Sugar Coated" pretended improved Indian Vegetable Pills," which have been thrown into the markets and advertised extensively in the country papers—we have no desire to do so—nor is it necessary It is however, our duty to assure the public emphatically, that they are not an improvement on WRIGHT'S Indian Vegetable Pills, and that, whoever purchases them under this supposition is woefully deceived This caution is positively necessary, since the title (nearly) the qualities set forth the combination of ingredients, &c. are all those which formed the distinctive and original character of the true medicine

Remember, buy none but "WRIGHT'S Indian Vegetable Pills," which are protected by a patent These have attained an almost incredible sale and circulation, owing altogether to their own intrinsic merits The public will pass its own judgment upon any attempt to usurp the Laurel from the brow of the inventor of these medicines whereby has been placed by grateful thousands who owe their continuance of the enjoyment of the blessings of health to his happy and benevolent agency

Wright's Indian Vegetable Pills

have performed wonders when used in cases of Intermittent, Remittent Nervous, Inflammatory and Putrid Fevers, Measles, Small Pox and Erysipelas Inflammations of the Brain throat, stomach, lungs, liver intestines kidneys and bladder pains in the stomach, back and side consumption dropsy of the head of the chest, of the abdomen and of the limbs scrofula scurvy and syphilis cancer, gravel, loss of appetite, sick headache, rheumatism, both acute and chronic, spitting of blood, diarrhea dysentery and colics syncope, apoplexy and paralysis dyspepsia, hypochondriasis epilepsy, hooping cough, Palpitation of the heart, ulcers and sores of every description, hysterics, weak nerves, and low spirits suppression, and other delicate Female complaints

No other medicines ever discovered has grappled these horrid forms of disease with such general success They derive thus powerfully THE EMPLOYMENT OF NATURAL MEANS TO COUNTERACT THE LAWS OF NATURE The bowels of the earth have not been ransacked for poison nu minerals to infect the system under the pretence of eradicating disease The field and the Forrest alone have been searched for materials for the healing art From these have been collected remedies attacking the various forms of disease, and expelling it by the outlets provided by the author of our Being—the Lungs, the Skin, the Kidneys and the Bowels Hence Wright's Indian Vegetable Pills based upon the curative mode suggested by nature, are Sudorific Diuretic Expectorant and Purgative

THE ORIGIN of this invaluable medicine entitles it to unlimited confidence and respect The nearer we approach to nature, in our researches after truth both in science and art the more complete will be our success in both Look at the uniform physical condition of the Indian Tribes of this continent whether exposed to the frosts and storms of the North, or to the rain, heat, and pestilential miasma of Southern climate, Houseless, unprotected, exposed to every atmospheric change every extreme of the seasons dwelling at times in morasses and by the margins of unhealthy pools and swamps—they yet enjoy an almost total immunity from disease, while the white man, who enjoys all the comforts of civilization with its attendant arts is as much inferior to the savage in physical vigor as he is superior to him in intellectual acquisitions—How does this happen? Simply because bereft of the light of science, he relies upon that divine instinct which impels him to select from the produce of the field and forest those remedies which Nature and Nature's God has bountifully provided for the source of suffering and the mitigation and cure of disease—nothing them broadcast on every hill and valley Let those who impiously arraign the good justice of Divine Providence, and point with a sneer to the multitude of invalids who lie groaning upon beds of sickness, turn from the false lights of man, and study the secrets of nature and they will adore that mercy which has so bountifully provided a cure for every wound—*a remedy for all who seek one*

Disease rarely assumes one form from another even in any one case—Hence the absurdity of attempting by one uncompounded medicine But Wright's Indian Vegetable Pills combining a remedy for every form of disease attacks successfully any combination of malady This union of powers renders these pills tremendously cleansing in their nature and operations They cannot fail of affording relief if taken according to directions accompanying them They may be freely resorted to in the most desperate cases of the most determined disorders, for they have effected remarkable and marvellous cures They are applicable to a wide range of diseases as their use is not confined to any particular age or to either sex They are now triumphantly established beyond the reach of cavil and the only danger that exists is in the part of the public, lest they should suffer from unauthorised spurious Pills, palmed off by the help of titles similar to that of the genuine Pills There fore, we once more caution the public against purchasing but the

GENUINE
"WRIGHT'S INDIAN VEGETABLE PILLS."

These Pills as we before remarked operate by purgation—by thoroughly cleansing the entire system from all impurities and making the invalid, in the homely but expressive phrase a new man whether the disease is INCIPIENT CONSUMPTION which insidiously attacks the Lungs producing that dry, hacking cough so painful to the friendly ear, or Cutaneous, showing itself upon the skin in eruptions or blotches, whether the Kidneys or the Bowels be affected—*Wright's Indian Vegetable Pills* are equally efficacious in warding off danger Their expectorant cathartic, sudorific and diuretic qualities enable them to take hold of each form of disease

The *perfect safety* of the medicine is another all important quality, and one which has contributed more than any thing else to its extension and popularity

In a word this medicine commends itself strongly to the patronage of the public and its use bids fair to become, before long, ALMOST UNIVERSAL

FOR SALE.

VALUABLE MILLS and Water Power near the city of Bangor and on navigable water

Owing to ill health, will be sold a portion, say an undivided moiety of the whole of the valuable mill property situate in Brewer Village on both sides of the large Cove on Brewer Stream, well known as the best stream of its size running into the Penobscot river, fed by a chain of ponds and living springs, one of said ponds which is commanded by these mills, is from three to four miles long and will contain over 2000 acres of water The stream was never known to fail of a fair head of water, and can be much improved by dams &c The mills now erected are in good order consisting of a double saw mill, rents for $150 0 per annum, and a Grist Mill rents for $500 per annum These mills run the year round they are two miles south of Bangor at the head of the Cove perfectly free from any risk of freshet by aream or river, as was proved the present season There is sufficient water power with breast wheels on this dam for 6 saws with their band mills and circulars for cutting slabs and which will saw from five to six millions feet per annum Vessels load at the mill wharf and the lumber may be assorted at the saw

There is also a fall of water in said Cove below the present mills which has been measured by an experienced Mill Wright, who is responsible and ready to contract to erect a dam and bridge at this place of 12 ft with tide gates, which shall use the water of the stream over again run mills on Vallentine or other suitable wheels 18 hours in the 24 A double saw mill and the grist mill may be placed here at small expense and this improvement will add much otherwise to the profit of the whole estate There is a good house, store and mill house and many fine river lots for wharfing In short no property on the plan of the growing city of Bangor is more available or will pay more income upon an outlay of a few thousand dollars than this—it is virtually within the city, and must increase in value with the growth of the same it has many other privileges being one of the best locations in N England for ship building and ere long will become a manufacturing village

For terms and other information application may be made to SAMUEL THATCHER Jr, my Attorney on the premises or GEO A THATCHER, of this city SAMUEL THATCHER

Whig and Courier.

John S. Sayward,—Editor.

THURSDAY, MAY 28, 1846.

☞ The following remarks of the editor of the New York Tribune, now on a visit to Washington, of the impressions at the metropolis, and of the impracticability of conquering Mexico, contain opinions and facts worthy attention at the present time

Mr Greely says that he finds many of our ablest and strongest men at Washington disposed, or rather compelled, to take a gloomy view of the present aspects of our Foreign Relations They say that this Mexican War could not have been brought upon us without a deliberate purpose on the part of the Executive to have War at all hazards, and they are confident that this Mexican brush is intended but as a cover for the needful preparations for a War with Great Britain, including the preparation of the hearts of the People, so early proclaimed essential by Gen Cass! The wolt must have a taste of blood to rouse the ferocity and lust we deem his nature! The Country must be lured away from its devotion to the pursuits of peaceful industry and made to despise the sordid career of improvement in the useful arts—it must be taught to find its intellectual aliment in bulletins of slaughter and conflagration rather than in Industrial Exhibitions and rivalries, before it can be expected to turn out One Hundred Thousand Men and borrow One Hundred Millions of Dollars for the invasion of Canada It is believed, therefore, that the Executive will repel all offers of Mediation for the settlement of our troubles with Mexico—in fact that he has repelled them in advance—that the War will be prosecuted on the Rio Grande—that our Pacific fleet has probably ere this captured the ports of California, and that an Annexation Revolution, *a la Texas*, either already has or soon will put us in open possession of that vast region,—that an Army will be collected at St Louis or Independence and pushed on Santa Fe, while a still stronger is landed at Vera Cruz or Tampico and hurled directly at the Mexican Capital Mexico, weakened and rent by internal distractions and thus menaced with subjugation, will naturally sue for Peace, and then we shall send her an ultimatum, demanding that Texas shall be extended to the Rio Grande, or probably to the Sierra Madre beyond—that *old* Santa Fe shall be surrendered to us as well the portion West as that East of the Rio Grande—that California shall also be ours, with whatever lies between them, cutting off some 500 to 700 miles in width of Mexico, across the entire continent, from the Red River to the Pacific Great Britain will by this time interpose in behalf of her capitalists who hold heavy mortgages on Californian lands, the War speeches made at this Session will foment trouble in Oregon, and the world will be involved in War Such is the view taken by very cool heads here, and it is certain that 54 o 40's evince a demoniac exultation since the War bill passed A leading Loco Foco Senator from the West, who does 54 o 40 at all hazards, maintains in private conversation that *we ought to have a ten years War*—that it is needed to animate our Patriotism, rewire our Nationality, &c &c. To men of this stamp, a War with Mexico is a paltry affair, not worth the bother required to get us into it They mean to have a War which will pile up a National Debt that will stand by us, and give us Heroes to fill all the offices and Pensioners to devour the Revenue for fifty years to come.

Now that we have been plunged into a war and the Executive has proclaimed a determination—in the spirit if not in the letter—to "revel in the halls of the Montezumas," may we be allowed to inquire by what route our army is to be conducted thither?

Troops are concentrating at Matamoras, with the avowed intention of invading Mexico, and penetrating to its capital city In a few weeks 30,000 Americans will bivouac on the Rio Grande Who is the author of these movements? The President, of course Does he understand the geography of Mexico? Is he aware that but *one* road leads from Matamoras to Mexico? that the road is a thousand miles in length? that it is crossed by a thousand *barrancas* some of which are hardly practicable to the sure-footed mule? that ten thousand carbines in the hands of desperate men will be leveled to dispute every inch of the way? And finally, that on this journey—perilous even to the peaceful and well equiped traveler—provisions enough could not be found to save a hundred men from starvation? How then is an army of thirty or forty or fifty thousand men to reach the city of Mexico by way of Matamoras? A few weeks since, and it was a very common thing to hear the declaration, that 10,000 Americans could march triumphantly from one end of Mexico to the other Lately we have become less sanguine—50,000 have been called out—and it is even a doubtful matter whether 50,000 may accomplish the desires of our Executive

They will not, should they invade Mexico by way of Matamoras Why, one *Cerro* on this route which must be climbed (the range San Antonomica) is barely practicable for mules—it is ascended by eight short and desperate windings—a narrow path—from which the traveler looks beneath with a fearful dizziness, hundreds and hundreds of feet through empty space — None but muleteers can travel these fearful *quebradas* without feelings of terror

Imagine 50,000 soldiers winding up such a declivity as this! It is hardly practicable were there no enemy to oppose their ascent. What then, can our 50,000 volunteers reach Mexico by this route? Yes, they may—pinioned as prisoners, and instead of "reveling in the halls of the Montezumas," of the Mexican hierachy, they may stand a chance of wearing more ponderous "jewelry" in the palace prison of the Acordada.

But suppose Mexico is invaded by way of Tampico—this route is equally difficult with the Matamoras road, and joins the latter at the town of Saltillo.

Vera Cruz, then, is the only other road which is practicable *from the terra calients to the table lands of Mexico* This road can be travelled by four-wheeled carriages, and is in fact traveled by regular 'Yankee' stages manufactured in the town of Troy

But what will be the chances of an invading army? There is one pass between Jalapa and Perote—the Barranca Seca, which might be defended by five hundred resolute men against twenty times their number Who knows that this pass may not become a modern Thermopylæ?

Let our Government then take heed We have never yet tried our strength beyond our own boundaries that we have not been defeated! A good cause only—the cause of freedom—cannot be the heart and the arm of the freeman — Without this both are feeble—both may be paralyzed

WAR WITH MEXICO!

FARTHER PARTICULARS

Arrival of 8000 more Mexican Troops at Matamoras—Gen. Paredes on his way with 15000 more—intended attack on Fort Taylor—a most gallant defence of the Fort.

There has been two engagements between General Taylor and the Mexican troops, the first occurring on the 7th inst when Gen Taylor was returning from Point Isabel to his camp opposite Matamoras

Gen Taylor reached his camp the afternoon after the action, leaving there his whole force He started the next morning for Point Isabel, and arrived there on the evening of the 10th, without molestation On the morning of the 11th, he started back to his camp opposite Matamoras

Official accounts of a second battle between the Mexican and American forces, which took place on the 9th, commencing at half past three o clock, P M, within three miles of Camp Taylor The action was upon the edge of a ravine, and one mile from the chaparral, which was here about 12 miles in width

The Mexicans commenced the action with their artillery, which was posted so as to sweep the narrow pass by which Gen Taylor was advancing —there being a swamp on either hand Gen Taylor immediately ordered a charge in the teeth of the enemy s destructive fire, and the troops promptly responded, and carried the enemy s guns at the point of the bayonet

So sudden and impetuous was the attack, and so successful, that Arista had not time to save his papers, which, with all his correspondence, fell into the hands of Gen Taylor

The action lasted one hour and a half, in which time 600 Mexicans were either killed or wounded, and the Americans took 300 prisoners and eight pieces of artillery The American loss in action, was but sixty two, killed and wounded

The Southern mail brings New Orleans papers of the 17th, morning, which contain the account of Gen Taylor s battle, published yesterday, and nothing later from the seat of war An extra from the Tribune office, however professes to give later and important news, received by telegraph

The substance is the 3000 more Mexican troops had arrived at Matamoras—that 3000 more had crossed the river, and that President Paredes was marching to take the chief command in person, at the head of 15,000 more

Major Brown is said to have died of a wound received in the cannonade of the camp

'Our loss has only been 263 in the fort The constant practice the enemy have had in firing at it has taught them the proper bearing to give to their guns, and almost every shot falls within the works The fort is now idle and the ramparts and dwellings of Matamoras exhibit ruins of a hundred centuries When gaping forth their lamentations are, lo and behold what desolation is here! '

The enemy attempted to detour around the chapparal upon our right, to attack the train of wagons, and were met by the 8th infantry in hollow square and driven off with heavy loss

During the cannonade the grass was set on fire, which so obscured the enemy that a cessation of firing for near three quarters of an hour ensued This was the smoke seen on board the Flirt, I presume

' The strength of the fort and the skill with which it is defended are incomprehensible to the Mexicans, and exceed they might be, for they have thrown upwards of 1400 shot and shells into the works and every morning they present the same appearance

"The steamer Mississippi arrived on the 12th from Vera Cruz

"The Bainbridge is off the Rio Grande, enforcing the blockade

"It is said that an expedition is to be sent by boats of the Squadron to take the town of Barita, 16 miles from the mouth of the river, where there is a military force

Gen Vega, now our prisoner, was captured by the Texan forces, at the slaughter of San Jacinto He was at the fall of the Alamo, and is a brave and accomplished officer

"A concentrated attack on Matamoras is contemplated by the land forces and Commodore Conner s boats '

A pretty feat was accomplished by Lieut Roland, of Duncan's battery He advanced with part of the train through the burning grass, the flames rolling 10 feet high, seized the prolongation of the enemy s right and enfiladed the enemy's flank completely Gen Taylor s general directions were to find the enemy with the bayonet.

The extra says —

The sloop of war St Mary's arrived from Pensacola on the 16th, steamer Mississippi on the 10th from Vera Cruz The Bainbridge is off the Rio Grande, enforcing the blockade

A concentrated attack on Matamoras is contemplated by the land forces, and Commodore Conner s boats. It is more probable it is Barita that is aimed at, where all stores and ammunition

Requisition upon Maine.

We learn from Augusta that the Governor of this State has received from the Secretary of War a requisition for a Regiment of Volunteers, to consist of ten companies—750 men and officers It is said that neither the Governor nor the Adjutant General seem to know how these troops are to be raised.

☞ The United States Gazette says —"Ten millions of dollars are voted to carry on the Texas war scheme, and fifty thousand men employed in that deathly climate Half of ten millions of dollars would have purchased the *whole of Texas from Mexico*, and saved the lives of our citizens, sacrificed in the swamps, and saved the honor of the nation, tarnished by the miserable management of the army movements

The Financial Prospect.

The Washington correspondent of one of the New York papers says, we see, in a letter of the 14th instant, "It may yet appear necessary, before the termination of the session (of Congress) to pass a bill authorizing a loan, to meet the expenses"

Doubtless Congress will find itself under the necessity, before adjourning of providing money, in addition to the current revenue, to defray the expenditure which will attend the now inevitable military operations of the Government — The reduction of the Tariff of duties on imports, had it been carried into effect, would equally have induced this necessity, now or not long hereafter, of supplying revenue from some other source But the late act of Congress—and, indeed, independently of the movement in Congress, the preceding action of the Executive—requiring an expenditure probably far to exceed the surplus in the Treasury, may be considered as an indefinite postponement of the Treasury scheme for a general reduction of the Tariff

We take it for granted, however, that, for any immediate purpose, the Administration will first resort to the expedient of an issue of Treasury notes, the necessity for resorting to which will, in connection with the existence of a foreign war requiring the transportation to great distances of large sums of money, render the Sub Treasury scheme wholly impracticable, and probably cause that, as well as the anti Tariff prospect, to be deferred

Should the War unhappily be prolonged, however, loans must be necessarily recurred to, and will constitute the chief source of revenue for defraying the expenses of the War When ever loans are to be authorized, in any considerable amount, Congress will find itself obliged to lay direct taxes and excises, and pledge the proceeds of them to pay the interest and provide a sinking fund for their redemption

We do not suppose, therefore, that any loan, in the shape of an issue of Government stock, will be resorted to at the present session of Congress

Affairs at Washington.

Washington, May 23

The Senate was not in session

In the House Mr Reed moved to reconsider the vote by which the House agreed to the amendment reported from the Com on Naval Affairs to the Senate bill repealing a part of the act making appropriations for the naval service for the year ending June 30, 1846 Question upon reconsideration postponed to Monday

Mr Haralson from the Military Com reported back the Senate bill providing for one assistant paymaster general and three additional paymasters in the army, without amendment, which was finally referred to com of the whole The rest of the session was devoted to private bills

MAINE LEGISLATURE

Augusta, May 23

In the Senate, Mr Gore from the committee on Interior Waters reported order of notice to be given on petition of Samuel Watts et als — George W Washburn et als

Read once and Monday assigned—Bills to incorporate the Thompson Society—in addition to an act to incorporate the proprietors of the Bangor House—to incorporate Sabattis Cotton and Woolen Manufacturing Company

Mr Allen asked leave to lay upon he table an act incorporating the Ktahdn Iron Works—referred to committee on manufactures

On motion of Mr Ingersoll of Danville, the committee on Military Pensions was directed to inquire into the expediency of making provision in favor of the officers and soldiers of the revolution who served more than six months, and also in favor of the widows of such as reside in the State

Petitions read and referred—Simeon Allen et als for a new town, Sarah M Waterhouse for divorce, Fred k A Lewis et al of Waldo County, that town courts may be abolished, Joseph Newhall 2d et al of Thomaston, for leave to erect a dam across tide waters,

Once read and Monday assigned—Resolve in relation to certain judicial proceedings, Resolve in favor of the town of Webster

May 25

In the Senate, on motion of Mr Dunn, Ordered, (the House concurring) that Friday next be assigned for the choice of a United States Senator from this State for the term of six years, commencing on the 4th of March, 1847, and to this end, that the House ballot at 10½ o clock, A M and notify the Senate, and the Senate ballot at 11 o clock, A M and notify the House

Petitions presented and referred—Of Capt John Sabattis et als of Passamaquoddy tribe of Indians for an appropriation of money to build a chapel—of Wm V Smith et als Selectmen of Machias, praying leave to build a free bridge across Middle River

Ordered that the act establishing Town Courts be referred to a joint select Committee to consist of the delegation from Waldo, with instructions to inquire into the expediency of altering, amending or repealing said act

In the House, on motion of Mr Grant of Litchfield, the committee on the Judiciary was directed to inquire into the expediency of providing that all children shall be vaccinated before being admitted to primary schools

Order from the Senate assigning Friday for the election of U S Senator was passed in concurrence

Bill in relation to Penobscot Boom Corporation, resolves for the distribution of the annual school fund—laying a tax on the several Counties in this State, were finally passed

Petitions presented and referred—of Theodore Lincoln, Jr et als. for a grant of part of a township of land to Dennysville Academy, of John C Talbot et als of East Machias and Peleg Wilson et als of Cutler, that the question may be submitted to the people of Washington County, whether East Machias shall be made the shire town, of town of Dennysville for an act making valid the doings of said town since 1840, of Henry Smith and 285 others, and Sally M Smith and 284 others, for the suppression of intemperance

☞ We tender our thanks to Jerome & Co s Express for New York and Boston papers rec d yesterday in advance of the mail

Thanks are also due to Capt George Brown for Boston papers

☞ It is said that the British Government has determined to reduce the salaries of the clergy in all the colonies 20 percent

Laura Bridgman.

The Blind, Deaf and Dumb Girl—Report of Dr Howe to the Trustees of Perkin's Asylum for the Blind.

Continued

It will be seen by the extracts which will follow, that Laura has acquired much greater facility and copiousness of expression than before, nevertheless, a great portion of the year has been spent in teaching her the use of language It is often said, that, in order to have precision of language, there must be precision of thought, but the converse is equally true,—in order to have precision of thought (over a great range of objects) there must be precision of language Hence appears the great importance of storing the mind abundantly with words to which a precise meaning is attached, during that period of life which nature clearly points out as the only one well fitted for the task, namely, the period of childhood and early youth

It may be proper here to remark, that, whenever any expression of hers is quoted in the Reports concerning her, it is done with a sense of the importance of a scrupulous adherence to the exact form which she used; no change and no correction is ever made, not even of the orthography

I shall endeavor to make the extracts illustrate the mode of teaching her, as well as her own course of thought

One day, the teacher had remarked to her that the first settlers of this country sometimes had difficulty in procuring enough to eat, whereupon she asked, suddenly, "What repast did one man eat? She explained herself by adding, "When there was but one man on the earth The answer was, that there were fruit and berries — "But, said she, "when he was very small?" — She paused awhile, and then added, "I guess God took care of him, and gave him some milk

Her teacher was reading, the same day, something in which a compass was mentioned, upon which, she was desirous of knowing all about it Her teacher showed her a magnet, and applied it to a toy in the shape of a swan floating upon the water. When she felt the bird to be attracted by the magnet her face grew very red, and she said much surprised, 'It makes it live, it is alive, for it moves Her teacher then asked her if the bird ate, or slept, or walked, or could feel "No, she replied, but still seemed hardly convinced that the magnet did not give life to the bird, until she was shown its effect upon a needle

This led to an explanation of attraction, and she soon afterwards showed her disposition to apply all new words in as many senses as she can, by suddenly embracing her teacher, and saying, 'I am exceedingly attracted to you because you are always so kind!

A little reflection upon the mental process by which she converted a term expressive of a physical relation into one expressive of a mental emotion will explain the difficulty which many persons find in understanding how she ever learned abstract terms, and words significative of mere emotions

Laura of course, cannot convert those terms which usually express physical relations into terms expressive of moral relations, so easily as other young persons can but in her case, as in theirs, the mental process is a natural and almost involuntary one All children go through it without any special instruction, and use metaphorical language long before they knew what metaphor is

The teacher plays a much humbler part in the intellectual developement of children than he is usually supposed to do, his influence in the formation of moral character may be greater, but too often he labors upon the form to the neglect of the latter

On the same day above referred to, she was speaking about something which recalled the past, and asked, 'Why was I not always so good? Not receiving an immediate answer, she added, People cannot always do right as one man did, who lived many years ago Doctor says nobody ever does right always, as Jesus Christ did — Her teacher told her that we must always try to be perfectly right, and then we should grow better and better She then asked, 'If we are perfect, shall we be like God?

The following extract from her teacher s journal will show how minutely her little faults are noted and how they are treated

'Sunday, Nov 10th Laura went to church with me in the morning In the afternoon, I left Jane Dimon with her, with permission to stay a short time When I returned, Laura did not welcome me as usual, and made some objection to a walk which I proposed but she was soon ready for it I learned from Jane, that Laura had done something that she (Jane) had promised not to tell me I asked Laura why she was not willing that I should know every thing that she did while I was away She said, 'I was afraid you would reprove me' I asked her if I ever spoke unkindly to her when she had done wrong 'No' replied she very emphatically, 'you never blame me Why did I pull the wire? I answered, that I thought curiosity and playfulness made her do it, that it was not wrong to be curious and playful but that it was wrong to try to conceal from me when she thought she had done amiss! 'I did not know it was to conceal, said she I told her that it was best for me to know what she did and thought, that I might be able to advise her 'I know it was wrong to pull the wire, Jane had told me also that Laura was unwilling that she should leave her, and made several very unpleasant noises I alluded to this when talking with Laura, and she said, 'I was not impatient 'But, said I, 'Jane said you made some bad noises 'I did n—, she began to say, hesitatingly, when I said, 'Did you not make noises? and she replied 'I believe I did not refrain from making bad noises,

'I was now obliged to leave her for a short time When I came back, she was not inclined to say much, and seemed trying to force a smile By this time, the headache which had followed me all day became quite severe and I left her again to her reflections It is the first time that she has attempted to deceive me She was afraid, perhaps, that she had done some injury to something She could have no fear that I should speak severely to her, for I never blame her in the least Generally, when she is doing or saying any little thing that I disapprove I simply stop it at the time, and afterwards speak of the thing abstractly She will apply my remarks to herself and to the circumstance but without any unpleasant excitement of feeling, and she remembers them a long time

'Many times she has said, 'I cannot be perfectly good, as Jesus Christ was I have told her that every one should try to be perfectly good, and never be willing to do wrong even in a little thing,—explained to her that perhaps it was a desire to appear perfectly good which prompted her to conceal that which she was afraid was wrong

'When I spoke to her again, she said 'I was praying to God and told him that I had been so wrong, and asked him to forgive me and send me better thoughts I told him my motives were bad to conceal from you, and to tell you that I did not make impatient noises She then put her hand on my hot head and asked what made it worse I answered, 'Sad thoughts — She said, 'I am sorry you were detained from being happy by a sad circumstance I have told God that I will not do so wrong again '

To be continued

DIED,

In this city, 27 h, Hon William D Williamson, aged 66 Mr W has filled many stations of honor though, perhaps, is best known as the author of the History of Maine

To the Honorable Senate and House of Representatives of the State of Maine in Legislature assembled

RESPECTFULLY represent the undersigned citizens, engaged in lumbering and the owners of timber on the upper waters of the Penobscot River and the St John's that to render that species of property most available to themselves and the public generally, who are or may become interested in timber near those waters it is essential that a cut or sluiceway should be made from Telos Lake to Penobscot Pond, otherwise called Webster Pond for the transit of lumber and for the attainment of this end it is further necessary that a Dam should be built to cause the water to flow into said sluiceway, on Township No 7 Range 13

They therefore pray your Honors to incorporate the undersigned into a Company for this purpose and to invest them with authority to cut such a sufficient cut or sluiceway to be made for the transit of lumber from said Lake Telos to Webster Pond and to erect and maintain a Dam on Township No 7 in the 13th Range west from the east line of the State to cause the water to flow into said sluiceway And to indemnify them for the expense to be incurred in the enterprise they pray that they may be allowed a Toll not exceeding fifteen cents for every thousand feet of lumber which may be transported through said cut with the exception that the lumber cut on township No 6 in the 13th Range, through which said sluiceway is to pass may be transported therein free of toll And with the further condition that when by the Toll aforesaid the said Company shall have been reimbursed the expense by them incurred with six per cent interest on their investment, the right to said sluiceway for the passage of lumber or other purposes shall become free to the public generally and that thereupon the right to take toll shall cease And as in duty bound will ever pray

WM H SMITH, and 3 others
may 18 1846

STATE OF MAINE.

In Senate May 5 1846

ON the petition aforesaid *Ordered* That the petitioner cause an attested copy of petition with this order thereon to be published two insertions in the Bangor Daily Whig & Courier the last of which to be six days at least before the fourteenth day of June next that all persons interested may then appear and show cause (if any they have) why the prayer of said petition should not be granted

DR. JACKSON'S PILE EMBROCATION

THIS valuable medicine for the cure of Piles, in their various forms, blind, white and bleeding, accompanied with that intolerable itching which is so common is now offered for sale in this city.

It is decidedly the very best medicine for the cure of this disease, that has ever been offered to the public, and we ask our friends who are troubled in this way, to try it, that they may be satisfied of the fact. For sale by HALL & YOUNG,

may 12. 1md&w 4 Smith's Block.

HOUSE FOR SALE.

A two story wooden block with two tenements, situated on the corner of Central and Prospect sts., will be sold at a good bargain.

To let—a Store on Main-street. Apply to

april 6. I. DENNISON.

Every Man should Know

THAT Riches are for spending, and spending for honor and good appearance; and that if he will call at

JOHN H. HUNT'S

Elegant and justly celebrated fashionable and cheap

CLOTHING ESTABLISHMENT

He will there learn how much better it is to spend his money at this establishment than at any other, both on account of the superior

GARMENTS

he will obtain and the greater

ECONOMY

Of the purchase.

It seems to be a great puzzle to many people how it is possible that at this warehouse, garments of such richness are sold for so small an amount of money, but the reason for it is just this, that prime bargains draw custom and increase trade, and it is better always to do a large business at small profits than a small business with large profits. The public begin to understand the matter, and this accounts for the unsurpassed popularity of

HUNT'S

Large Clothing Establishment at the

East End of Kenduskeag Bridge,

In the sale of

READY-MADE CLOTHING,

CLOTHS, CASSIMERES, VESTINGS

AND

Fancy Dress Articles.

The amount of Stock now on hand is very rich and inconveniently large, and must be sold for cash. It consists in part of

100 Frock Coats.
250 prs. Doeskin Pants.
78 prs. black Cassimere Pants.
150 Tweed Coats.
400 Satin Vests.

—ALSO—

A large assortment of

LINEN BOSOMS, COLLARS, SHIRTS, &c.

The chance for splendid bargains will well repay the purchaser for making earnest efforts to reach the sales room of

JOHN H. HUNT, Agent.

East-End Kenduskeag Bridge...Bangor.

may 12 E HARRIS, Agent

Folger's Olosonoian All-healing Balsam.

ITS COURSE IS ONWARD.

SO great has been the demand for Folger's Olosonoian or All-Healing Balsam, and it has given such general satisfaction to those who have used it and become acquainted with its virtues, that it now stands pre-eminent as a remedy in DISEASES OF THE LUNGS and the testimony which has been given by different persons who have been cured by it, is altogether voluntary on their part They have given it in the hope that all who may find themselves in need of this remedy may apply for it without delay

☞ Read the following letter received from the Rev. Mr Shimeall Pastor of St Jude's Episcopal Free Church Mr S has not only used the medicine himself, but has witnessed its effects in several very trying cases of disease The letter will show his opinion of its virtues

Dear Sir Believing it to be but an act of common humanity to those suffering under the various diseases of Coughs, Colds, Hoarseness, Consumption, Asthma, &c. to point them to a safe, speedy and radical remedy, I take pleasure in bearing my testimony to your invaluable medicine called OLOSONIAN, or ALL HEALING BALSAM Of its efficacy I can speak first from my own experience. Being subject from exposure more or less to the vicissitude of our climate, to frequent attacks of influenza, Hoarseness, &c I have always found it to afford almost instantaneous, and always by perseverance in its use effectual relief For a particular friend of mine, suffering severely under Asthma, and who had despaired of obtaining relief from any human source upon my recommend from was induced to give the OLOSONIAN a trial and he pronounced the effect produced upon him a perfect charm, affording him immediate relief In another instance I recommended it to a female friend, far advanced in Consumption After the use of the first bottle, her Cough was entirely removed, and her appetite and strength restored to such a degree as to astonish all who saw her With a long cherished and firmly established prejudice against the thousand and one specifics put forth in these days, as sovereign panaceas for all diseases, I assure you that nothing short of my firm conviction of the claims of your medicine to an origin so respectable and of the effects of it as herein certified, both by my own experience and observation I could not have been induced thus to come forward as a witness in its behalf. I have the honor to be sir,

Respectfully yours
R C SHIMEALL

HAVE YOU A COUGH

which is troublesome and has not yielded to any of the remedies which you have used? Is it attended with Pain in the Side Shortness of Breath, and Night Sweats

DO YOU RAISE BLOOD

when you Cough and find your strength gradually failing? You will find that these symptoms if not properly attended to, will terminate in Consumption and Death Are you troubled with that distressing complaint ASTHMA which deprives you of your rest at night, and renders life burthensome

HERE IS THE REMEDY

Remember the name, and place where it is to be obtained, and do not be put off with any other It has produced a cure in as desperate cases as yours may appear to be, and doubtless will put to flight in a speedy manner those distressing symptoms which fill your minds with gloomy forebodings of the future

ITS HEALING PROPERTIES

do not deceive The short dry cough is quickly overcome, and easy and healthy expectoration takes its place Spitting of Blood is immediately checked Night Sweats, with pain in the side and chest, debility and difficulty of Breathing yield in a short time Asthma, with all its dreadful accompaniments is at once relieved Bronchitis, and in fact all the diseases of the Throat and Lungs give way before this Remedy, when all other means have failed

Persons may attempt to deceive you with some other remedy, pronouncing it to be equally as good but remember life is at stake therefore BE NOT DECEIVED

CHRISTIE'S GALVANIC RINGS AND MAGNETIC FLUID.

THIS remarkable discovery comprises an entirely safe and novel application of the mysterious powers of Galvanism as a remedial agent The Galvanic Rings in connection with the Magnetic Fluid have been used with entire success in all cases of RHEUMATISM, acute or chronic, applying to the head face or limbs, Gout Tic Doloreux, Toothache, Bronchitis Vertigo Nervous or Sick Headache, Indigestion Paralysis Palsy Epilepsy, Fits Cramp, Palpitation of the Heart, Apoplexy, Stiffness of Joints Spinal Complaints Lumbago, Neuralgia, Nervous Tremors Dizziness of the Head, Pains in the Chest and Side General Debility, Deficiency of Nervous and Physical Energy, and all Nervous Disorders In cases of Dyspepsia, which is simply a nervous derangement of the digestive organs they have been found equally successful The Rings are of different prices, being made of all sizes and of various ornamental patterns, and can be worn by the most delicate female without the slightest inconvenience

The Galvanic Belts, Bands, Bracelets, &c.

Are modifications of the invention, and are recommended in more chronic cases of diseases, where the Rings do not possess sufficient intensity or power They are adapted to the waist arms wrists ancles chest or any part of the body with ease—Any Galvanic power that is required may thus be obtained, and no complaint which the mysterious agent of Galvanism can effect will fail to be permanently relieved

Christie's Magnetic Fluid.

is used in connection with the Rings and their modifications This composition has been pronounced by the French Chemists, to be one of the most valuable discoveries of modern science It is believed to possess the remarkable power of rendering the nerves sensitive to Galvanic action, by this means causing a concentration of the influence at the seat of disease, and thus giving rapid and permanent relief

Christie's Galvanic Strengthening Plasters

These articles form an important addition to the Galvanic Rings acting upon the same principle but having the advantage of more local application As an effectual means for strengthening the system when debilitated by disease or other causes, as a cure for and in constitutional weakness, as a preventative for colds, and in all affections of the chest generally, the *Galvanic Strengthening Plasters*, will be found of great and permanent advantage

☞ HOME CERTIFICATE ☜

These testimonials all of which are from the most respectable sources have been selected from several hundred of a similar character which have been procured during the short time the discovery has been before the American public

Nervous Headache and Rheumatism

Mr JACOB A OGSBURRY, No 462 William street, New York has been afflicted from childhood with almost constant Nervous Headache and Rheumatic pains in the legs and arms He was also troubled with great nervous debility and indigestion, Mr Ogsburry tried the Galvanic Rings and Magnetic Fluid and states that after a few hours the application appeared to strengthen my nerves entirely relieved my headache and I have had no relapse of the Rheumatism since the first day

The Dolores

The following testimonial is from *Timothy C Dwight Esq* who is so favorably known from his exertions in the cause of education throughout the Northern States

Dr A H Christie—Dear Sir—For several years I have been terribly afflicted with that agonizing complaint called Tic Doloreux principally affecting the sciatic nerves At times, no human being can have suffered more—my screams have often disturbed the neighborhood By simply wearing one of your Rings on each of my hands, and faithfully using the Magnetic Fluid, the complaint has entirely left me and I now believe myself completely cured I am very respectfully yours
TIMOTHY C DWIGHT

Albany, Dec 4, 1845

☞ Mrs Mary Bonycastle, widow of the late Prof Bonycastle President of the Virginia University, residing at Mrs Shepard's Pennsylvania Avenue, Washington D C, has also been permanently relieved of severe Tic Doloreux affecting the face

Convulsions and Fits

Dr A Christie—Dear Sir—I feel it a duty to state for the benefit of the public, that your Galvanic Remedies as applied by the Rings and Magnetic Fluid, have entirely cured my son now eleven years old, of the most severe and alarming Fits to which he has been subject for the last six years He has often had from 12 to 16 fits in one day, sometimes accompanied with the most dreadful screeching at the same time a choking in the throat and pain in the region of the heart His mother and myself have long despaired of his life, but through the means of Providence and your remedies, he is now quite well, and I sincerely believe his cure will be permanently

I am very respectfully yours
GEORGE WHITE, 101 Charles st

New York, Nov 18, 1845

☞ A child of the Rev S R Bosworth that well known minister of the Methodist Episcopal Church residing at 105 Division street, New York, has been subject to Fits since birth He has generally been attacked in the night, and has several times been supposed to be dead The use of the Galvanic Bracelets and Fluid has caused their complete disappearance The system being much weakened by the frequent attacks, the Galvanic Strengthening Plaster was recommended which was used with the happiest result

Sick Headache

The following certificate is from a lady of Capt John B Strain one of the most respectable citizens of Albany, N York Reference can be given to many others mostly ladies who seem peculiarly affected with this malady

This is to certify that I have been afflicted for several years past with the Sick Headache, which distressing complaint has confined me to the bed from one to two days in the week during that time For one month past I have worn Dr Christie's Galvanic Rings and occasionally using the Magnetic Fluid I am happy to say that I have not been troubled with the sick headache since
ANN F STRAIN 67 Dewitt st

Albany Dec 9, 1845

☞ Mrs J Trenor, wife of the celebrated Dentist No 4 College Place, N Y, sent for the Rings and Fluid during the continuance of a severe attack of the Sick Headache to which she has long been subject In five minutes after applying the Fluid the pain entirely left, and once then, there has been no return of the complaint

Epilepsy and Palpitation of the Heart

The following case relates to a Clergyman, the son in law of Mr John Jacob Astor, of New York Rev John Bristed Minister of the Episcopal Church at Bristol, R I, residing in Main st, has long been subject to distressing attacks of Epilepsy often falling down insensible The disease has been accompanied with violent Palpitation of the Heart, and a rush of blood to the heart For three years he has been unable to preach or attend to his other duties Mr Bristed has found the most valuable benefits from the Rings, Bands and Fluid as better in every respect than he has been since his illness, and is now rapidly recovering his health All symptoms of Epilepsy have left him

Rheumatic Gout

To Dr Christie—Sir—After a fair trial of almost everything, without any good effect, I think I must attribute a remarkable cure to the power of your Galvanic and Magnetic articles If I am not mistaken in the cause, they have very seriously relieved me of Rheumatic Gout, of long standing, together with general nervous debility of the system
MRS MARY JACKSON,
109 Buck-st N York

☞ Mrs Jackson is a relative of Mr or M M Noah, who has kindly added the following—

Dear Doctor—The above case is personally known to me, and is not less strange than true It is a happy result, to which I bear witness with pleasure I may state that several other cases have come to my notice, of a nature equally fortunate and successful Very sincerely yours,
New York, Oct 30 1846 M M NOAH

Apoplexy and Paralysis

☞ The following case is of a deeply interesting character, and has attracted the attention and examination of some of the first physicians of New York and Brooklyn

Capt ANDREW J F TOWNS, residing at No. 70 Bridge street, Brooklyn, L I is in his 76th year. He has generally enjoyed robust health but about 7 years since it began to fail a general weakness and debility affected him, accompanied with depression of spirits loss of appetite, inability to sleep, &c. Dr John W Francis, of New York, was consulted. The usual remedies, such as copious bleeding, &c were recommended, but shortly after Capt Townes fell down insensible in the street, with a severe apoplectic fit On recovery he noticed that a portion of his side was apparently dead, and on further examination his physicians pronounced his case to be that of confirmed Apoplexy and paralysis. He was now unable to walk without assistance he could neither feed nor dress himself alone, he was unable to articulate distinctly, and his sight was impaired The family of Captain Townes were induced to try the Galvanic Rings and Magnetic Fluid, and for this purpose procured a pair of Rings for the hands, a pair of Bands for the limbs, and one bottle of the Fluid. In twenty four hours after using these articles, feeling was perceptible in the paralyzed parts, and perspiration broke out In 6 days he was enabled to raise his arm and use his hand and in three weeks he was enabled to walk along A period of nearly six months has now elapsed, during which time no symptom of Apoplexy has been apparent, he is enabled to take regular exercise, and all his impaired faculties have been restored

Severe Rheumatism

Mrs Eliz Miller No 90 P place, between Rachel and Buttonwood sts, Philadelphia, has been completely cured of the most severe attacks of Rheumatism for which she had tried everything in vain The excessive pain would often compel her to rise ten times in a night, and her hands were drawn up so as to be perfectly useless After using the Rings and Fluid for only 24 hours the pains entirely left and has not had the slightest attack for several months

Dr Christie is in possession of nearly one thousand testimonials, received from persons who have been entirely cured of the most severe Rheumatism, both Chronic and Inflammatory for which every other remedy was useless The Rings and Fluid when properly applied, have never been known to fail in every of those cases

☞ Beware of spurious imitations of the above articles, which are offered by unprincipled persons The only place in New York to obtain the genuine Rings and Fluid is at 131 Button street, Sun Building All sold elsewhere in this city are worthless counterfeits entirely devoid of any beneficial effect

The Sugar-Coated Pills.

A NEW SARSAPARILLA PREPARATION.

To cure Diseases, Purify the Blood! To avoid them, keep it pure!!

That PREDISPOSITION which exposes the human frame to the infection and virulence of every class of disorders proceeds directly or indirectly, from a morbid state of the system caused by

IMPURE BLOOD.

HALSEY'S SUGAR COATED MAGIC LIFE PILLS The originator of the only true and genuine Sugar coated Pills most respectfully informs the enlightened public, that this new and elegant preparation can be obtained only from advertised agents and at the proprietor's establishment No 323 Broadway N York—Price 25 cents a single box 5 boxes for one dollar

G W LADD Agent for Bangor

Among the numerous remedies which stand reputable on the basis of an ancient name—are none perhaps which have acquired so great celebrity and extensive use in so short a time as this invaluable article—They have gained their high reputation, alone by their good works Those who once try them, always use them again They are grateful to the stomach,—they improve the functions of secretion, nutrition and circulation They restore digestion and appetite, and create a natural warmth inwardly, which glows through the whole system, giving it greater vitality and animation The experience of thousands attest to their good effects After using them for a short time the hitherto wretched invalid finds that all disagreeable and unhealthy humors have forsaken his system His digestive organs perform their proper functions; his blood regains its wonted purity the oppressive sense of weakness and pain departs, and his body becomes endowed with renewed strength and vigor—while the mind resumes its original vivacity and clearness Such are the results produced by Halsey's Sugar coated Pills the mildest yet most effectual preparation of the class in use

In BILIOUS complaints, Costiveness, Indigestion, Dyspepsia, and all other disorders of the stomach they produce the most happy results For Sores, Boils, Saltrheum, Tetter Erysipelas, Eruptions of the Skin Scrofulous complaints and many other like diseases arising from IMPURE BLOOD, they have become highly celebrated Hundreds of certificates have been received from individuals who after having taken them for a few weeks, (according to the directions which accompany the box) were cured of the most afflicting cases of *scrofulous affections* They give *Good Blood for Bad* Bottles of the boasted Sarsaparillas, contain less of the true virtues of that valuable plant, and are less effectual than a single box of these extraordinary Pills In Colds Coughs, Influenza, Sore Throat Headache Giddiness &c they are recommended with entire confidence the relief in these cases is quick and permanent For Fever and Ague, Fevers Asthma Piles, Loss of Appetite, Dropsy, Jaundice Worms, Looseness General Debility, and many of the various other diseases to which the human system is liable, they have proved an infallible remedy! Their action on the bowels is of the mildest character, even *over doses* never cause griping or uneasiness yet they are searching and efficient It is impossible by words to give an adequate idea of the great and good effects these pills produce and their superiority over every other remedy of a similar class, a trial only will explain the wide difference! The unhappy invalid after having *tested* but *a single box* of them, will with joy for the unexampled change wrought in his health, bear testimony to their uncommon virtues

N B The *costing of sugar* adds nothing to the great virtues of the Magic Life Pills, it is their uncommon powers in promoting health, on which all their merits stand, notwithstanding this they are the original sugar coated pills The proprietor made this valuable improvement to preserve their curative virtues entire as well as to render them pleasant to the taste; yet individuals of no integrity have counterfeited other pills, coated them, and through the base and silly pretension to a patent are distributing them about the country, deceiving the public by disposing of them unjustly through the already acquired reputation and popularity of the genuine *Halsey's Sugar coated Pills* In order to get the true and original sugar coated pills see that the engraved signature (G W Halsey) is on the label of each box and buy only of advertised agents

CONSUMPTION.

AND the best medicine known to man for Asthma of every stage Liver Complaints, Bronchitis Influenza, Coughs, Colds, Bleeding of the Lungs, Shortness of Breath, pains and weakness in the side, breast, &c and all other diseases of the

PULMONARY ORGANS.

A very important disease over which this 'Balsam' exerts a very powerful influence, is that of a

DISEASED LIVER

In this complaint it has undoubtedly proved more efficacious than any remedy hitherto employed, and in numerous instances, when patients had endured long and severe suffering from this disease without receiving the least benefit from various remedies, and when MERCURY has been resorted to in vain the use of this Balsam has restored the LIVER to a healthy action, and in many instances effected

PERMANENT CURES,

after every known remedy had failed to produce this desired effect

Opinion of a Regular Physician.

Exeter, Me Sept 30 1845

This certifies that I have recommended the use of Wistar's Balsam of Wild Cherry for diseases of the Lungs, for two years past and many bottles to my knowledge have been used by my patients, all with beneficial results In two cases where it was thought confirmed consumption had taken place, the Wild Cherry effected a cure
E BOYDEN, Physician at Exe or Corner

NO QUACKERY! NO DECEPTION!

All published statements of cures performed by this medicine are, in every respect TRUE

BEWARE OF COUNTERFEITS AND IMITATIONS The unparalleled and astonishing efficacy of Dr Wistar's Balsam of Wild Cherry in all the diseases for which it is recommended during many years after the skill of the best physicians was unavailing has effected a large and increasing demand for it This fact has caused several unprincipled counterfeiters and imitators to palm off spurious mixtures of similar name and appearance, for the genuine Balsam

Be careful and get the genuine DR. WISTAR'S BALSAM OF WILD CHERRY Now genuine unless signed I BUTTS Address all orders to SETH W FOWLE Boston Mass

N. F. DOWNS' Vegetable Balsamic Elixir.

The great Northern Remedy for CONSUMPTION.

Also for the cure of Colds, Coughs, Whooping Cough Croup Bleeding at the Lungs Bronchitis, Catarrh, and all diseases of the Pulmonary or Bronchial Organs

IT is now more than ten years since this incomparable remedy was given to the public, with what success the thousands of restored invalids, with the universal encomiums of a grateful people afford abundant and gratifying evidence. Indeed no medicine has ever with such UNIVERSAL SUCCESS grappled with disease It is its own best commendation, and to be valued needs but to be known

Its operation upon the system is marked and peculiar from that of most similar preparations

Its *EXPECTORANT*, and most essentially aids in the expulsion from the stomach and lungs of phlegm and phlematic humors, through the process of expectoration or spitting

It is *SUDORIFIC* and promotes a healthy perspiration, thus expelling by the pores of the skin those nauseous fluids and impurities of the blood the retention of which in the system is a prolific source of suffering to the invalid

It is slightly *CATHARTIC* and usually corrects any costiveness attendant upon Pulmonary complaints, while most similar preparations produce a contrary effect thus adding to instead of diminishing that difficulty (See statements of Mr Meader, Mr Ross and others, in the pamphlets and sheets)

We do not pretend that the Elixir is a specific for all the ills that flesh is heir to, but we do say and can confirm by incontestible evidence, that for CONSUMPTION it is unequalled! Hundreds by its use have been snatched from an untimely grave, and hundreds more who delayed too long its use, have found even then that relief from suffering which they had vainly sought from every other source

For hard and obstinate COUGHS whether produced by a mere cold, the relic of a fever or the result of a more fixed and permanent pulmonary habit, it is just the thing needful, as by its wonderful expectorant qualities it loosens the cough and enables the patient to raise with little effort what would otherwise cause hours of hard and laborious coughing Many persons testify that after having been unable to obtain more than a slight degree of rest for weeks they have on taking the first dose, obtained a comfortable night's rest and by continuing its use in a short time have been restored to health

OBSTINATE COLDS AND COUGHS it will usually cure in from two to five days

To persons afflicted with *WHOOPING COUGH* we would especially recommend the Elixir as it relaxes the cough, and saves much of the labor of hard coughing usually attendant upon that disease

ASTHMA We believe it is a generally acknowledged fact wherever the medicine is known that nothing so generally gives relief—in so great a proportion of instances effects a perfect cure in this distressing malady, as Downs' Elixir (See certificates of Mr Carleton Mr Perkings, and others in pamphlet)

CROUP This dangerous malady in children may be cured by Downs Elixir We speak confidently having never known, among the hundreds of instances in which it has been used, one where it has failed after a fair trial

BLEEDING AT THE LUNGS In this dangerous and formidable disease, the success of the Elixir has been such that we feel authorized in saying no preparation has ever met with similar success It has rarely, perhaps never been known to fail where it has been early resorted to and the directions faithfully followed (See statements of Mr Meader Mr Walker, Mr Downs Alderman Morton and others in the sheets and pamphlets)

In conclusion, we would say, never despair—Hope on hope ever! If you still doubt of its virtues, its efficacy, enquire of those who have used it Enquire of the Agents who sell it They generally, either from experience or observation, know of its merits, and when they tell you of its effect—what they have seen and what they know—are entitled to your confidence

Pamphlets and sheets may be had of agents gratis, giving a full description of the medicine, &c

IF YOU HAVE NOT TIME TO PERUSE THIS AT PRESENT, PRESERVE IT FOR A LEISURE MOMENT—IT IS OF IMPORTANCE IN AGAIN PRESENTING TO THE PUBLIC.

The Dandelion and Tomato Panacea.

THE Proprietor would not claim for it, that it is a specific for ALL the diseases to which the human frame is subject but does claim that in all complaints where a purifier of the Blood is required that this Panacea is infallible and its powers are admitted by all who have used it, and it has the sanction of our first Physicians

He would ask for it only, that meed of attention to which the public may deem it entitled—and would prefer that its beneficial results be its sole recommendation, and the relief and health which must accrue to the diseased and suffering from its use should speak unanimous praises

For any of the following complaints, the Dandelion and Tomato Panacea is the best remedy that has yet been offered and no article has given such universal satisfaction for Headache, Dizziness Sleepiness Loss of Appetite Indigestion, Dyspepsia Erysipelas Salt rheum Jaundice Scrofula, Scurvy, and all cutaneous eruptions of the Skin Chronic Diseases Rheumatism General Debility, or any complaint that HAS ITS ORIGIN IN IMPURITIES OF THE BLOOD

This PANACEA is composed as all must be aware who know anything of the *Dandelion, Tomato and Sarsaparilla*, its principal ingredients, from the most innocent as well as the most efficacious remedies to be found in the Vegetable kingdom, and who does not know that for all those diseases, in which a complete and radical change in the composition of the Blood, in the secretions of the Liver, and in the formation of the solid parts of the body are regarded there are no remedies, that will for a moment compare with them

That it is purely a Vegetable composition, the public may rest assured, but should any prove skeptical, I can show them the *Vouchers of Eminent Physicians* to that effect who have examined the formula, and have tested its virtues

CAUTION.

The purchaser will be careful to see that my name *is signed* on the wrapper of each bottle as there are worthless articles put up in smaller bottles pretended to produce the same result, but are not safe to use Be sure therefore, and enquire for Ransom & Stevens' Dandelion and Tomato Panacea, which may be obtained of duly appointed Agents

Manufactured only by JAMES KIDDER, Jr East Boston and for sale by my appointed Agents

PATENTS.

AMERICAN AND FOREIGN OFFICE, And Agency of the U S Patent Office, Washington No. 22 State-Street, Boston.

THE subscriber by appointment from the Commissioner of Patents is Agent of the U S Patent Office for the purpose of receiving and forwarding to the same all such models specimens of ingredients and manufactures as shall be intended to be patented, or deposited therein which will be received and forwarded free of expense and risk to their owners, and with all possible despatch The subscriber will prepare Caveats Specifications Assignments, and all the necessary Papers and Drawings will make researches into American and Foreign works for establishing the validity or utility of inventions, and render advice on all legal and scientific matters respecting the same Patents secured in Europe and other countries

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents The experience of fourteen years practice—an extensive collection of rare works documents, decisions &c on mechanical subjects, and the Patent Laws—and patents of different countries, collected at much expense during the long time this office has been established and to which daily additions are being made, together with accounts here kept of inventions intented at Washington, enable me to afford reports and assistance and inform inventors desirous of securing Patents, which in other respects might be difficult of attainment

Temperance! Temperance.

WHERE are all the teetotallers and other temperance folks, who have so long and so loudly been calling for a thoroughgoing TEMPERANCE HOUSE in Augusta, and have complained so much and mourned so deeply, because they were under the necessity, for want of such a house, of stopping at rum taverns? Do they not know that the Stage House is, in all respects, just such an one as they want It has been fitted up at great expense, for a public house, it has excellent accommodations and is in a most delightful situation It is now kept by Mr CHAS. FREEMAN, a distinguished member of the Sons of Temperance, a very attentive and obliging Landlord, who has incurred great and onerous liabilities in order to accommodate the public in this respect—Let them see to it that he is well sustained.

BY THE QUEEN'S PATENT

TRIUMPHANT SUCCESS OF BUCHAN'S HUNGARIAN BALSAM, THE GREAT ENGLISH REMEDY FOR CONSUMPTION!

THE great and only REMEDY for Colds, Coughs, Asthma and CONSUMPTION is the *HUNGARIAN BALSAM OF LIFE* discovered by the celebrated Dr Buchan of London England and introduced into the United States under the immediate superintendence of the inventor

The extraordinary success of this Medicine in the cure of Pulmonary diseases warrants the American Agent in soliciting for treatment the WORST POSSIBLE CASE that can be found in the community—cases that seek relief in vain from any of the common remedies of the day and have been given up by the most distinguished Physicians as CONFIRMED AND INCURABLE The Hungarian Balsam has cured and will cure the *worst desperate cases* It is no quack nostrum but a standard English Medicine of known and established efficacy

INCONTESTIBLE PROOFS.

Of the efficacy of this Balsam in the worst forms of Consumption.

From Dr. Storer of Saco Me

DR BRADLEE Dear Sir The Hungarian Balsam is doing and will continue to do great and indisputable preparation for Diseases of the Lungs I have used it in my family and in my professional practice for more than two years with the most uniform satisfactory success in cases of severe Pulmonary Diseases, and I can conscientiously recommend it to all who are afflicted as the most certain remedy for such diseases with which I am acquainted

Yours Respectfully,
FREDERICK T STORER M D
Saco, May 22 1845

Valuable evidence from David Bugbee Esq Bangor

Bangor Sept 18 1844

DR BRADLEE—Dear Sir At your request I send you a report of my success as General Agent for the Hungarian Balsam I have now had the Agency for that excellent medicine about two years and have sold in that period, nearly twelve dozen or 1728 bottles Most of which have been sold in the city of Bangor but many dozens have been sent several hundred miles to Houlton and the Provinces, to Machias Eastport &c The success of this Balsam in the cure of Consumption Pulmonary diseases is absolutely astonishing Hundreds I am sure have been saved from a premature grave by its medicine who have supposed to be past all hope have been restored to good health at the last moments of the Lungs have been so far destroyed as to be incurable by any other medicine Cases of Croup and Whooping Cough have been cured by it and it is now my constant resort in cases of any difficulty in the throat or lungs I have recommended this Balsam to a great many persons and shall continue to do so as I believe it to be the best thing in the world for diseases of the Lungs

Yours truly FRANCIS A WEEKS

*From Edward Mason Druggist Portland Me
